TFIC's Annual Report is now available to view online.

17th Occasional Workshop on Environmental and Resource Economics
The 17th Occasional Workshop on Environmental and Resource Economics will be held Friday and Saturday, November 9-10, 2018 at UC Santa Barbara. This is a chance to connect in an intimate, relaxed setting with other environmental and resource economists in beautiful Santa Barbara, California. This year's workshop is being organized by Olivier Deschenes and Kyle Meng. The workshop website can be found online. The format will consist of full paper presentations (25 minutes), plus a dedicated discussant (10 minutes), and audience discussion (10 minutes). There will be an "egg-timer" session with shorter presentations as well. This year's workshop will also feature a special session for PhD students who will be on the job market in 2018-19.

Paper submissions are due July 27. Papers will be selected by August 15. Please email your full papers to occasional_workshop@bren.ucsb.edu.

Jobs

Postdoc
As part of the Belmont Forum-funded Food-water-energy for Urban Sustainable Environments (FUSE) project, the Water Program at IIASA is offering a position for a full-time post-doc level Research Scholar in Water Resource Economics and Hydro-Economic Modeling. The successful candidate will work on further developing and implementing the in-house hydro-economic modeling framework (ECHO) and applying it in the framework of the FUSE project. This includes the development of interfaces for integrating ECHO and the in-house hydrological and water resources model, Community Water Model (CWaTM), and the development and application of modules for land use and energy sectors within ECHO. Read more and apply online.
