Announcements

Bixuan Sun dissertation defense
Bixuan is scheduled to defend her PhD thesis next Monday, August 27 at 9:00 a.m. in 230 Ruttan Hall. The title of her dissertation is, "How Markets, Policies and Consumers Influence the Transition to Clean Energy," and will feature three chapters: 1. Market Power and the Transition to Clean Technology, 2. Heterogeneous Direct Rebound Effect: Theory and Evidence from the Energy Star Program and 3. Heterogeneous Impacts of Residential Solar Rebate Programs in the U.S. We hope you are able to attend!

Jobs

Economist
The American Council for an Energy-Efficient Economy (ACEEE), based in Washington, DC are seeking a qualified economist to join their team. Through a combination of research and outreach, the Senior Economist serves as the organization's leading voice on economic issues. The Senior Economist may also assist with ACEEE's work on financing and corporate energy efficiency efforts, depending on interest and expertise in these areas. The Senior Economist works closely with ACEEE's executive team and other ACEEE programs to ensure high-quality research that advances ACEEE's mission. He/She will be responsible for leading, managing and growing ACEEE's Economics Program. The Senior Economist will work with researchers across the organization and will have the opportunity to hire additional staff to support new funded work. Read more and apply online.

Assistant Professor
The Department of Resource Economics at UMass Amherst invites applications for a tenure-track assistant professor with an applied microeconomics and econometrics research focus, specifically in the area of health economics. Under exceptional circumstances, highly qualified candidates at other ranks may receive consideration. Teaching responsibilities will include undergraduate and graduate courses in microeconomics, econometrics, managerial economics, and/or health economics. The successful candidate will be expected to develop a nationally recognized research agenda. A wide range of interdisciplinary research opportunities are available across the University of Massachusetts Amherst campus, including through the Computational Social Sciences Initiative and the Institute for Social Science Research. Read more about this position and apply online.
