Announcements

May 13- Online Agricultural and Resource Economics Seminar

The seminar will be held on Wednesdays at 11 am Central US time.

The seminar this week will be held on May 13, 2020. Fran Moore from University of California-Davis, will be presenting, "The Adaptive Benefits of Agricultural Water Markets."

If you would like to register, see the OARES website [here](#), and make sure to sign up with your institutional address. The OARES website includes a schedule of forthcoming talks as well.

Jobs

Marie Sklodowska-Curie Individual Fellowships: Euro-Mediterranean Centre on Climate Change Foundation

The goal of the Individual Fellowships is to enhance the creative and innovative potential of experienced researchers, wishing to diversify their individual competence in terms of skill acquisition through advanced training, international and intersectoral mobility. Individual Fellowships provide opportunities to researchers of any nationality to acquire and transfer new knowledge and to work on research and innovation in Europe (EU Member States and Horizon 2020 Associated Countries) and beyond. The scheme particularly supports the return and (re)integration of European researchers from outside Europe and those who have previously worked here, as well as researchers displaced by conflict outside the EU and Horizon 2020 Associated Countries. It also promotes the career restart of individual researchers who show great potential.
