Jobs

Graduate Assistant — CURA CAP–Agricultural Utilization Research Institute (AURI), Crookston is seeking a Graduate Research Assistant. Location: Twin Cities. This is a 195 hour appointment for Spring Term (01/14/16-5/29/2016)

You must be enrolled in a graduate or professional degree program at the U of M and have a background in engineering or physics; experience in biomass or renewable energy; and experience in data collection

CAP – Biomass Cooling Technologies Feasibility Guide: AURI is a non-profit research institute established by the Minnesota Legislature in order to improve the economy of rural Minnesota. AURI provides scientific technical assistance, technology transfer, applied research services, product development assistance, and innovative networking to foster value-added development and process improvement for agricultural products and coproducts. A student research assistant is need to help research existing absorptive cooling technologies and evaluate economic feasibility and business assistance associated with implementing identified technologies.

Student positions are a form of financial support while pursuing an education at the University of Minnesota. For more information contact: Becky Philipp, bphilipp@auri.org (218) 280-8575.

Application Instructions: Applications taken until filled. Apply online only via the U of M Employment System by submitting resume, cover letter, and three references. Apply online at <http://bit.ly/1OvGaa6>

Research Associate — The Federal Reserve Bank of Kansas City is seeking a Research Associate, Regional Affairs. This position will assist senior staff economists on academic research projects, monetary policy briefings, and public presentations. More experienced Research Associates participate in econometric research, write for Bank publications, and deliver speeches to civic and educational groups.

Responsibilities include: gathering and analyzing data, programming economic models, performing basic econometric and statistical analysis, conducting literature searches, preparing charts for presentations on economic and financial conditions, writing summaries of economic and financial conditions, and drafting other reports and memos.

This is an excellent position for someone considering a PhD in economics or a career in research and policy. Most Research Associates stay with the department for two to three years, at which point many return to graduate school.

Community Development Specialist — The University of Missouri Extension is seeking a Community Development Specialist (Assistant Extension Professional, Associate Extension Professional, Extension Professional)

University of Missouri Extension regional specialists provide collaborative leadership and subject-matter expertise to develop, deliver and evaluate educational programs focused on improving lives, communities and economies. In general, regional specialists provide educational opportunities that enable businesses, farms, families and communities to strengthen the economy and enhance quality of life. In addition, regional specialists create partnerships with civic and business organizations, educational institutions, local leaders and key stakeholders to identify priorities, increase financial and in-kind resources, and strategically address needs with research-based education.

This position is responsible for planning, implementing and evaluating educational programs in the following subject-matter areas: community economic development, capacity assessment, community and organizational planning and decision making, regional development, leadership and civic engagement, community partnerships, local government, community emergency management, public policy issues identification and framing.

The Community Development program works collaboratively with communities to foster economic development, leadership development, community decision making, community emergency preparedness and inclusive communities. For more information on community development programs, visit <http://extension.missouri.edu/cd/>.

A full position description may be viewed at:
<http://extension.missouri.edu/jobs>. Job# 18687 Review of applications and consideration of rank, if applicable, will begin February 8, 2016 and continue until position is filled.
